PERFECTLY

Ridiculous!

When in a moment of sad reflection we consider how cheaply we've been selling goods the past month, it cer-tainly does seem funny, if it were not so ridiculous. But when the "beauti-ful" turns into slush to yex and mortify the children of men, it takes either a boat or a bargain to bring the peo-ple out. We're out of boats, but

Here's the Bargains!

Don't you know we make the lowest prices of any house in the city? Quote some of our prices to our competitors and note their answers. Oh! You don't believe that, do you? They don't keep anything but shoddy! That's easy; anybody can sell that class of goods at who knows a bargain when it's within a thousand miles, and he gets it, too.

Our large outlet requires large pur-chases, and the bottom is found when we buy as well as when we sell. We are satisfied with a reasonable profit. Don't grasp for the Earth and complain if we don't get it. Don't expect to make a fortune on the sale of a few goods. We go on the principle of liv-ing and let live." Give good, sound, up to date goods at up to date prices, and don't allow any Competition to undersell us. We claim your trade on this platform, and if you wish to be careful in the expenditure of your money and make One Dollar do the of one and a half and two and sometimes three, we are at your service. We have the Largest Variety of any house in the County and adding

Departments full of the Newest, Best, Brightest, and Cheapest Goods to sell you.

Our Wall Paper Department is rashed with orders for paper at 1c, 2c, 3c, 4c, 5c to 10 cents a bolt. It's not short length or rotten as some of our competitors claim, but will compare favor-ably with any stock in the city.

CARPETS.—Here is where we can do you a sight of good. It ain't old, out of date, moth eaten, but new and came direct from the factories 100 pieces to choose from at 10c, 15c, 18c, 25c, 35c, 43c, 49c and 55c. Mattings just received from the Importers, data't come through jobbers hands, and you get them from 2)ge to 10c a yard cheaper than elsewhere. Rugs at the profits usually charged on carpets, which is much cheaper than regular prices.

LACE CURTAINS .- Bought in lots of 50 to 100 pairs, how can houses who buy only 10 to 12 pairs of a kind compete with the prices we make? They will tell you theirs are much better.

SEWING MACHINES.-Here where we make the greatest cuts from regular prices. And guarantee every machine the same as the agents ask you from \$15.00 to \$25 00 more than our prices. - These machines are first class, but don't have the privilege of going through the agents' hands and have the extra prices put on them. Come and see for yourself.

DRESS GOODS. - New prices arriving daily. Our buyers have purchased some Bargains and we propose to give our sustomers the benefit of them. won't say that our competitors haven't got any pretty, new, or stylish goods, but we invite every one to look at our offerings and compare style and prices

LADIES' SHIRT WAISTS -Our advance sample lot, received for your inspection this week. Open for comparison in fit, style, quality and prices. Come and see, don't take any salesman's word for it, he'll not do them justice. he'll tell you they are not so good as his'n cause we don't ask so much that's a clinching argument in his estimation

We have lots of other things to tell

Come near forgetting we have the Roiston Health Club Flour. Breakfast Food and Pancake Flour. The purest and best food in the world.

PREPARING FOR WAR.

Military Preparations Are Being Hastily

But Systematically Made in Spain.

Madello, March 4.—The government has received a number of offers of pecuniary and other aid in the event of a war with the United States, growing out of the attitude of the latter on the Cuban question. The people appear to be determined to uphold the government in its Intention to keep Cuba a Spanish colony no matter at what cost. The cabinet is greatly encouraged by the attitude of the continental press which, generally speaking, expresses much sympathy with

Spain in her determination to resent what is termed Yankee aggression. One important factor in the support accorded the government, which is sedulously kept in the background, is that debentures and other securities depending for their value upon the income derived from Cuba, are held to a large amount by foreign capitalists. With a free Cuba, these securities would be practically worthless and this accounts in a great measure for the attitude of many of the foreign newspapers, which speak, not so much because the United States have any ulterior motive in recognizing the Cubans as belligerents, as because they are defending the financial interests of

capitalists of their country. The government has ordered that large quantities of coal be stored in

Cuba for the use of the warships. Military preparations are being hastily but systematically made. Orders have been issued for the despatch to Cuba of reinforcements from the Balearie, Canary and Philippine islands.

At the meeting of the cabinet, to be held Wednesday, Adm. Beranger, minister of amarine, will ask for a credit to complete the armament of the warships Pelaya, Oquendo, Vizscaya and Maria
